THESE few illustrations of decorative schemes and harmonies will, we trust, suggest that you enquire further as to our abilities as Decorative Artists and Manufacturers of High-class Furniture, etc.

¶ These same illustrations also prove our claim to have the experience and intuition necessary, not only to put the ideas of our clients into practical form, but also to adapt the various classical styles in decoration and furniture to the requirements of our present everyday life, in which comfort and refined surroundings form such an important part.

¶ We shall be pleased to estimate and submit sketches and suggestions for structural alterations and complete furnishings and decorations of Houses, Hotels, Clubs, Yachts, etc., free of charge and entailing no obligation.

¶ The favour of a visit to either of our establishments will be greatly esteemed.
